Features & Benefits

- ✘ Manufactured in the UK
- ✘ Easy to install
- ✘ Suitable for 10 gigabit Ethernet applications
- ✘ High density 24 ports
- ✘ Rear cover to protect termination and improve shielding

The Connectix 2020 series FTP panel offers Cat 6A performance and has been designed to present the cable termination IDCs horizontally on a tray at the rear of the panel, making termination and cable management easier.

Category 6A panel provide exceptional performance for high speed LAN's including 10 Gigabit Ethernet applications. The boards are designed using the latest noise compensation technique and the shielding feature can minimise the risk of EMI.

All sockets in the panel are commonly linked through the panel and can be grounded to the rack using the earth wire provided. When combined with Category 6A FTP Modules and cable, the link will perform well in excess of the Category 6A specifications.

Specification

Width	19" (483mm)
Depth	98mm
Height	1u (44mm)
Fixing Centre	467mm
Material	Mild Steel Sheet CR4 to BSEN 10130-1999 DC01
Finish	Matt Black Polyester Paint
Socket	High performance shielded side entry jacks
Socket Labels	Write-on Silk Screen on Panel Front
Cable Management	Improved cabling facility with easy to use cable tie positions for left and right cable entry
IDC Labling	Colour Coded to T568B
IDC Blocks	Industry Standard 4 way IDCs
Conforms to	TIA/EIA-568-C.2 Category 6A specification

Ordering Information

Product Description	Part Number
CCS Category 6A 2020 24 Way FTP RJ45 Panel	009-002-001-40
